

ERRATA

In the article of Ian J. Winfield, Colin E. Adams & Janice M. Fletcher 1996: Recent introductions of the ruffe (*Gymnocephalus cernuus*) to three United Kingdom lakes containing *Coregonus* species. — Ann. Zool. Fennici 33: 459–466, the following errors occurred:

— In Fig. 2 on page 461, the lower of the three figures should not have *C. lavaretus* in the x-axis labelling (as the other two have), but *C. albula* (see below).

— In Fig. 3 on page 462, the entire legend is missing. It should read: Fig. 3. Age structures and fitted growth curves for ruffe from Loch Lomond ($N = 60$), Llyn Tegid ($N = 137$) and Bassenthwaite Lake ($N = 27$).

In the article of Reiner Eckmann & Frauke Imbrock 1996: Distribution and diel vertical migration of Eurasian perch (*Perca fluviatilis* L.) during winter. — Ann. Zool. Fennici 33: 679–686, the following error occurred:

— In the text in parentheses for the caption of Fig. 4 (on page 684) instead of “(No. data available in the upper 20 m from 25 October to 10 January due to technical failure)”, should read (No data available in the upper 20 m from 25 October to 10 January due to technical failure)”.
